Draft for approval is submitted But it is suggested for consideration whether the reduced rates, as proposed, prevail in the Bangalore City and if not whether the same rates may not likewise be introduced into the latter, with the concurrence of the C & M Station authorities Encl 25/7/00

the rate in question was in force as recently as 15th May last & no inconvenience seems to have been felt in the Bangalore City, where the same rate prevails. Moreover it is difficult to see how carts laden with sand, earth and rough stone can be regarded as unladen or empty carts. Rule 9 of the Toll Regns requires that "tolls at the rates mentioned in Schedule B shall be levied" & the rate cannot therefore be varied. Submitted

SIR,

D. Vol IV
5976.

With reference to Government Proceedings No 12382/3 2 F 64 99 dated 15th May 1900 sanctioning the levy of tolls, I have the honor to state that a rate of two annas has been fixed on all laden carts, but the Vaddars and other poor ryots use their carts for bringing sand, earth and rough stones into the City and make a living by their sale The levy of two annas on each cart laden with them appears to be excessive considering the cost of the above materials

A proposal to reduce the toll on these carts was accordingly con-

sidered

in the Board and it was resolved that these carts be treated as empty carts, and toll levied accordingly A copy of the resolution is herewith submitted.

I request you will be good enough to obtain the Sanction of the Government for the Same.

I have the honor to be,

Letter no. 44 dated the 20 July 00 from the Presdt. of the municipal commrs. Mysore City, stating that the levy of tolls at 2 annas on every laden cart sanctioned in Govt. Procg No. 12382 3 & 4764-99 of the 15th May 1900, appears to be excessive in the case of carts bringing sand, earth, and rough stones into the city. 1 reporting the practice in his municipality

It is observed that no inconvenience is felt at the Bangalore City where the same rates prevail and the conditions of which do not much differ from those of Mysore. Moreover it is difficult to understand how carts laden with sand, earth and rough stones can be treated as unladen or empty carts. Under these circumstances the rate already sanctioned cannot be varied (reduced) as recommended.
